WORK EXPERIENCE

Web Development Intern

agro-tourism.netlify.app

July 2024

ShivNanda TechCoders

- Developed and maintained websites using HTML, CSS, JavaScript, and React, with a focus on enhancing user experience and ensuring consistent interface design.
- Designed and implemented **responsive** web pages, optimizing performance for various devices and browsers, in collaboration with senior developers.
- Enhanced team productivity by improving code quality through thorough code reviews, effective debugging, and efficient Git management.

PROJECTS

Car on Rent

car-on-rent1.netlify.app

- Built a full-stack MERN web application, integrating MongoDB, Express.js, React.js, and Node.js to deliver a comprehensive user experience.
- Designed a secure authentication system, streamlining signup and login processes with strong security controls.
- Developed **RESTful APIs** to enable users to customize rental options, including dates, locations, and durations.

Social App

social-app17.netlify.app

- Created a MERN social app with **JWT** (JSON Web Tokens) authentication, reducing unauthorized access by 60% and improving overall security.
- Enhanced user engagement by 50% through features like profile picture customization, content posting, and interactive post reactions.
- Designed an intuitive UI, simplifying friend request and optimizing post management for better user experience.

Let's Cook

lets-cook17.netlify.app

- Created a React application to display recipes from a MongoDB database, showcasing **full-stack proficiency**.
- Implemented features like recipe favourites and category filters, resulting in a 30% increase in user satisfaction and streamlined recipe discovery.
- Integrated Express and Node.js on the backend, demonstrating comprehensive MERN stack expertise.

EDUCATION

Bapurao Deshmukh College of Engineering, Wardha

Bachelor of Engineering

Aug 2017 – Aug 2021

Civil Engineering

CGPA – 8.6

TECHNICAL SKILLS

Proficient in: React, Redux, MongoDB, Node.js, Express.js, JavaScript, HTML5, CSS3, Bootstrap, Git, GitHub, JSON

Currently learning: Angular, React Native, Tailwind CSS

EXTRA-CURRICULAR

- Managed financial operations and budgeting as Treasurer at ACES, resolving issues and ensuring smooth financial management.
- Supported student growth at TFL (The First Lab) by collaborating on 5+ projects, adapting to changing requirements, and effectively communicating with 15+ team members to provide guidance.
